

STEM CELLS MEET CLINICAL TRIALS –

Translating stem cell research to the clinic

Joint Workshop of the Stem Cell Network NRW and the Cluster Medizin.NRW

The aim of the workshop is to promote exchange between researchers, clinicians and clinical trial centers. In addition, affected patients and other relevant users should also be involved. This dialogue is intended to initiate new clinical trials and/or increase the quality of clinical trials.

A incentive for collaboration is provided by a current BMBF call, which includes confirmatory and exploratory clinical studies as well as concept development phases in which patients are actively involved. The workshop is free of charge, a registration is required. All talks will be in English language.

Date & Time: July 01, 2021, 10:00 – 12:00 am

Technical Hosting: Cisco WebEx

More Information: <https://www.stammzellen.nrw.de/en/research/workshops-seminars/stem-cells-meet-clinical-trials>

Registration Deadline: 30.06.2021

AGENDA DRAFT

- 10:00** **Welcome & short introduction**
Stammzellnetzwerk.NRW & Medizin.NRW
Dr. Sira Groscurth & Dr. Patrick Guidato
- 10:15** **Funding opportunity: BMBF-Call on**
„Klinische Studien mit hoher Relevanz für die Patientenversorgung“
Dr. Karsten Georg, Medizin.NRW
- 10:35** **Best-Practice: A successful project from a former call**
Prof. Gerald Illerhaus, Klinikum der Landeshauptstadt Stuttgart
- 10:55** **Clinical trials – How can a clinical trials center assist?**
Dr. Christine Fuhrmann, UK Bonn
- 11:15** **Networking Sessions – Pitches and open discussion**
- a) **Cancer Diseases**
Chair: Prof. Wolfgang Wagner, UK Aachen & Prof. Martin Götte, UK Münster
 - b) **Cardiovascular Diseases**
Chair: Dr. Tomo Šarić, UK Köln
 - c) **Neurological Diseases**
Chair: Prof. Adele Rüger, UK Köln
 - d) **Further translational approaches**
Chair: Prof. Bernd Giebel, UK Essen

Open end, approximately 12:00/12:15h
