

StN SPOTLIGHT SERIES

CONNECTING STEM CELL SCIENTISTS IN NRW

Our **virtual exchange format** offers stem cell scientists in North Rhine-Westphalia opportunities to present new research data, get to know other stem cell groups in NRW and exchange about current developments.

**Virtual talks every
2nd Thursday at 2 pm**

All interested stem cell scientists in NRW are invited to participate!

No fees are charged for participation. Prior registration is needed to attend. Contact us to join the Spotlight video conferences:

info@stammzellen.nrw.de

Interested to
present your new
paper or to give insights
into your laboratory?

We are happy to receive
contributions for the
next Spotlights.

events/spotlight-series](http://www.stammzellen.nrw.de/en/events/spotlight-series)**

17.06.21 | Dr. Alexander Christian, HHU

Obstacles to debating the ethics of human embryonic stem cell research

01.07.21 | Prof. Dr. Thomas Dittmar, UW/H

Cancer Cell Fusion

15.07.21 | Dr. Nina Graffmann, UKD

Stem cell based modelling of nonalcoholic fatty liver disease goes 3D

29.07.21 | tba

12.08.21 | Dr. Lena Thiebes, RWTH Aachen

Endoscopic Spraying of Mesenchymal Stromal Cells: An In Vitro Study for Local Cell Therapy of the Lungs

26.08.21 | PD Dr. Thorsten Müller, RUB

SARS-CoV-2 infections in iPS derived human lung organoids

09.09.21 | Prof. Dr. Diana Klein, UK Essen

Vascular wall-resident mesenchymal stem cell fates within lung cancer

23.09.21 | Dr. Leo Kurian, UzK

Translational specialization in pluripotency by RBPMs poises future lineage-decisions

07.10.21 | Anika Neureiter, UK RWTH Aachen

Pain patient specific iPS-cells for functional disease modelling

21.10.21 | Prof. Dr. Gesine Kögler, UKD

Cell populations from cord blood for advanced and regenerative therapies

04.11.21 | Prof. Dr. Daniel Nettersheim, UKD

tba

18.11.21 | tba

02.12.21 | Prof. Dr. Volker Busskamp, UKB

Programming human stem cells to cell types of interest
